

The “Never Again” Test

“Today, the most dangerous form of Holocaust denial is not rejection of the voluminous evidence of long-ago Nazi crimes but incredulity towards the voluminous evidence of the new Holocaust being planned by Israel’s current enemies.” -George Gilder

The United States Holocaust Memorial Museum Fails the Test

We say "Never Again," but do we really mean it? The Museum dedicated to the memory of the Holocaust of the Jewish people and to the prevention of future Holocausts ignores the Islamic threat of genocide to Israel.

Your funds support exhibits, programming and speakers on every topic but the most important - the threat of another Holocaust.

Do something. Send the Museum a message.
